

KOVINOPLAST

Ivan Kavs s.p.

Obrtna delavnica KOVINOPLAST je bila ustanovljena leta 1968. Od leta 1985 je njen lastnik in direktor Ivan Kavs. Nahaja se v Tolminu, manjšem mestu na severozahodu Slovenije.

V zadnjih letih podjetje nenehno širi svojo dejavnost. Naša dejavnost zajema:

- mehansko obdelavo kovin,
- razrez kovinskih profilov,
- izdelavo pekarske opreme z neoprijemnimi DU PONT premazi,
- obnovo neoprijemnih DU PONT premazov,
- peskanje,
- prašno barvanje kovinskih polizdelkov in
- termično obdelavo kovin.

Leta 2003 smo pridobili certifikat kakovosti ISO 9001:2000, leta 2004 pa smo začeli s postopkom pridobivanja okoljskega certifikata ISO 14001.

The artisan's workshop KOVINOPLAST was established in 1968. Mr. Ivan Kavs has been its owner since 1985. It is located in Tolmin, a small town in the north-west of Slovenia.

In the last years the company has been constantly widening its range of activities. It includes:

- *mechanic working of the metals,*
- *cutting of metal profiles,*
- *manufacturing of bakery's equipment with unstuck DU PONT coatings,*
- *rehabilitation of the unstuck DU PONT coatings,*
- *sand blasting,*
- *dust painting of half finished of half finished products and*
- *thermal treatment of metals.*

We obtained the quality certificate ISO 9001:2000 in 2003 and we started with the procedure for obtaining the environment certificate ISO 14001 in 2004.

Opis operacij:

Operations:

Struženje kovinskih obdelovancev na CNC strojih
 Dimenzije obdelovancev:
 do Ø 180x600 mm
 Slika: Jermenica z galvaniko
 zaščito

Turning of the metal pieces on CNC machines
Dimensions of the products: up to Ø 180x600 mm
The picture: belt pulley with galvanic protection

Peskanje, razmaščevanje ter nanos neoprijemnih DU PONT premazov na vse vrste kovin
 Dimenzije obdelovancev:
 do 1000x800x600 mm
 Slika: Obnovljen pekač

Sand blasting, degreasing and coating with unstuck DU PONT coatings on different metals
Dimensions of the products: up to 1000x800x600 mm
The picture: rehabilitated baking plate

Nanos neoprijemnih DU PONT premazov na razne strojne dele
 Dimenzije obdelovancev:
 do 1000x800x600 mm
 Slika: Različni strojni deli

Coating of unstuck DU PONT coatings on different machinery's parts
Dimensions of the products: up to 1000x800x600 mm
The picture: different machinery parts

Termična obdelava kovin različnih strojnih delov (kaljenje, poboljšanje, cementacija, žarjenje, normalizacija ...)
 Dimenzije obdelovancev:
 do 700x300x300 mm

Thermal treatment of different metal machinery's parts (hardening, tempering, cementation, glowing, normalizing ...)
Dimensions of the products: up to 700x300x300 mm
