# RUT

## družba za proizvodnjo elektro in kovinskih izdelkov d.o.o.

Podjetje Rut d.o.o. je bilo ustanovljeno leta 1994.

Dejavnosti:

- proizvodnja statorskih navitij za motorje in zaganjalnike za kupca ISKRA AVTOELEKTRIKA d.d. in
- montaža elementov protektorja za kupca ETA CERKNO d.o.o.

Proizvodna dejavnost se odvija v Rutu, kjer s postopkom navijanja bakrenega traku izdelujemo tuljave. Na Postaji s postopkom trdega spajkanja združujemo elemente navitja, ki so s postopkom potapljanja impregnirani z elektroizolacijskim lakom.

Montaža elementov protektorja poteka na namenskih napravah in avtomatski liniji.

Podjetje je leta 2003 pridobilo certifikat kakovosti ISO 9001:2000, leta 2004 pa je začelo s postopkom pridobivanja okoljskega certifikata ISO 14001.

Število zaposlenih: 70

Poslovna partnerja: ISKRA AVTOELEKTRIKA d.d. in ETA CERKNO d.o.o.

*The company Rut d.o.o. was established in the year 1994.*

*Activities:*

- *the manufacture of the stator coils for the motors and starters for the buyer ISKRA AVTOELEKTRIKA d.d. and*
- *the assembly of protector parts for the buyer ETA CERKNO d.o.o.*

*The manufacturing activity takes place in Rut, where the coils are being produced using the method of winding up the copper band. The coils parts are being joined together by the method of hard soldering in Postaja. By the method of submersion, they are being impregnated with electro-insulating varnish.*

*The assembly of the protector parts takes place on taylor made devices included in the automated production line.*

*The company acquired the quality certificate ISO 9001:2000 in 2003 and started the procedure for acquiring the environment certificate ISO 14001 in 2004.*

*The number of employees: 70*

*Business partners: ISKRA AVTOELEKTRIKA d.d. and ETA CERKNO d.o.o.*
